**“I found Macquarie University to offer the best courses. It was also one of the best-recommended universities in Sydney, and offered a great business and marketing course that matched my studies at my home university in Denmark. One of my favourite courses at Macquarie was Entrepreneurship and New Venture Management. I got to experience hands-on learning, which included generating a business idea and building on that idea throughout the entire semester. As a result, I felt a stronger passion for the project as you could progress through different stages of developing a real business and learn so much from it. The incredible journey and opportunity of studying overseas also offered me a greater understanding of different cultures, better self-esteem, and an international network.”**
