# The Southern Cross Model

At Southern Cross University, we're always looking for a better way to do things. That's why all our courses are taught in a unique academic model that's designed to set you up for success at university and beyond.

The Southern Cross Model divides the academic year into six-week terms. You'll study two units (subjects) each Term, for four Terms a year, enabling you to focus deeply on what you are learning.

Content is highly interactive, with engaging face-to-face and active learning formats that have real-world applications. A shorter unit structure gives you a greater sense of momentum and motivation as you achieve milestones quickly.

Use the QR code below to learn more about the Southern Cross Model – a better way to learn.

## Six-week Terms

Terms are six-weeks long with a break between each one. You'll typically study across four Terms a year - it's up to you!

## Increased success

Average GPA of students in the Southern Cross Model increased by 11% from 2019-2022.

## Immersive learning

Focus on just one or two units each Term for an immersive study experience. Learn more, quickly, in workshops and tutorials.

## Greater completion

16% increase in completion rates for units studied in the Southern Cross Model (2019 vs 2022).

## You're in control

The Southern Cross Model works with you in juggling all your other commitments – family, work, sport, friends. It's university for the 21st century.

"You get to focus really hard, then after that you can relax. That's the reward at the end of each subject – a two-week break before the next term starts. You can clean your mind and come back with new energy."

Davi Martins Algranti, Bachelor of Business and Enterprise student.
